

The Top 5 Reasons Why Brokers & Advisers Love Working with Empyrean

We are so much more than a benefits administration platform.

Since 2006, we've partnered with the nation's most trusted benefit advisors to bring their clients' benefits strategies to life.

Here are the top five reasons why brokers continue to rely on Empyrean to help them win, retain, and build their book of business.

1 We share your commitment to the clients you advise and serve.

Empyrean combines innovative technology and compassionate service to deliver connected, engaging benefit experiences that enrich lives and improve workplace cultures. Our 98% client retention rate reflects our commitment to service excellence.

2 We boast a benefits adoption rate that's 3x our nearest competitor.

Our personalized, claims-based decision support and healthcare navigation technology empowers employees to better **choose** and **use** their benefits – leading to improved levels of benefits adoption, utilization, and engagement.

3 We remove implementation barriers and guarantee an on-time launch.

With a 4.5 out of 5 customer satisfaction rating, our implementation experience removes common burdens organizations face when changing BenAdmin partners. We also guarantee that your clients will go-live with Empyrean on or ahead of schedule.

4 We've seen it all.

Our solutions are thoughtfully configured to meet the unique needs of each individual client, regardless of population or plan complexities. This removes the need for numerous point products while elevating both administrator and employee experiences.

5 We help you meet your strategic and financial goals.

We empower your clients' employees to make better benefits-related decisions that help your clients meet their benefits and organizational goals, demonstrate your value as a trusted advisor, and improve employee outcomes.

"This is the best implementation I've ever been a part of. We found fewer issues in testing than I've ever seen."

– Alan Lubeck
Head of US Benefits
Sanofi

"Empyrean's team has made this a true partnership, and offers lots of resources to help us enhance our benefits."

– Robyn Tam
Sr. Benefits Consultant
Clorox
